

KEY-GRAPHIX case study

SKINNY DOG HOTEL

PROJECT: Skinny Dog Hotel - Beer Garden

ARCHITECT: Techne Architects

BUILDER: Leeda Projects

PRODUCT: KEY-KOMPRESS 15mm
Compressed Fibre Cement

Techne Architects used the concept of an images that reflected the Hotel signage to create a unique and interesting facade.

Keystone manufactured these perforated panels using a special computer aided program and tooling.

Keystone provided samples and shop drawings and delivered panels direct to site without any delays.

This project was an award winning project. AWCI 'Facade System Award 2011'.
